# Lead Capture to Booking System Designed for Service Businesses

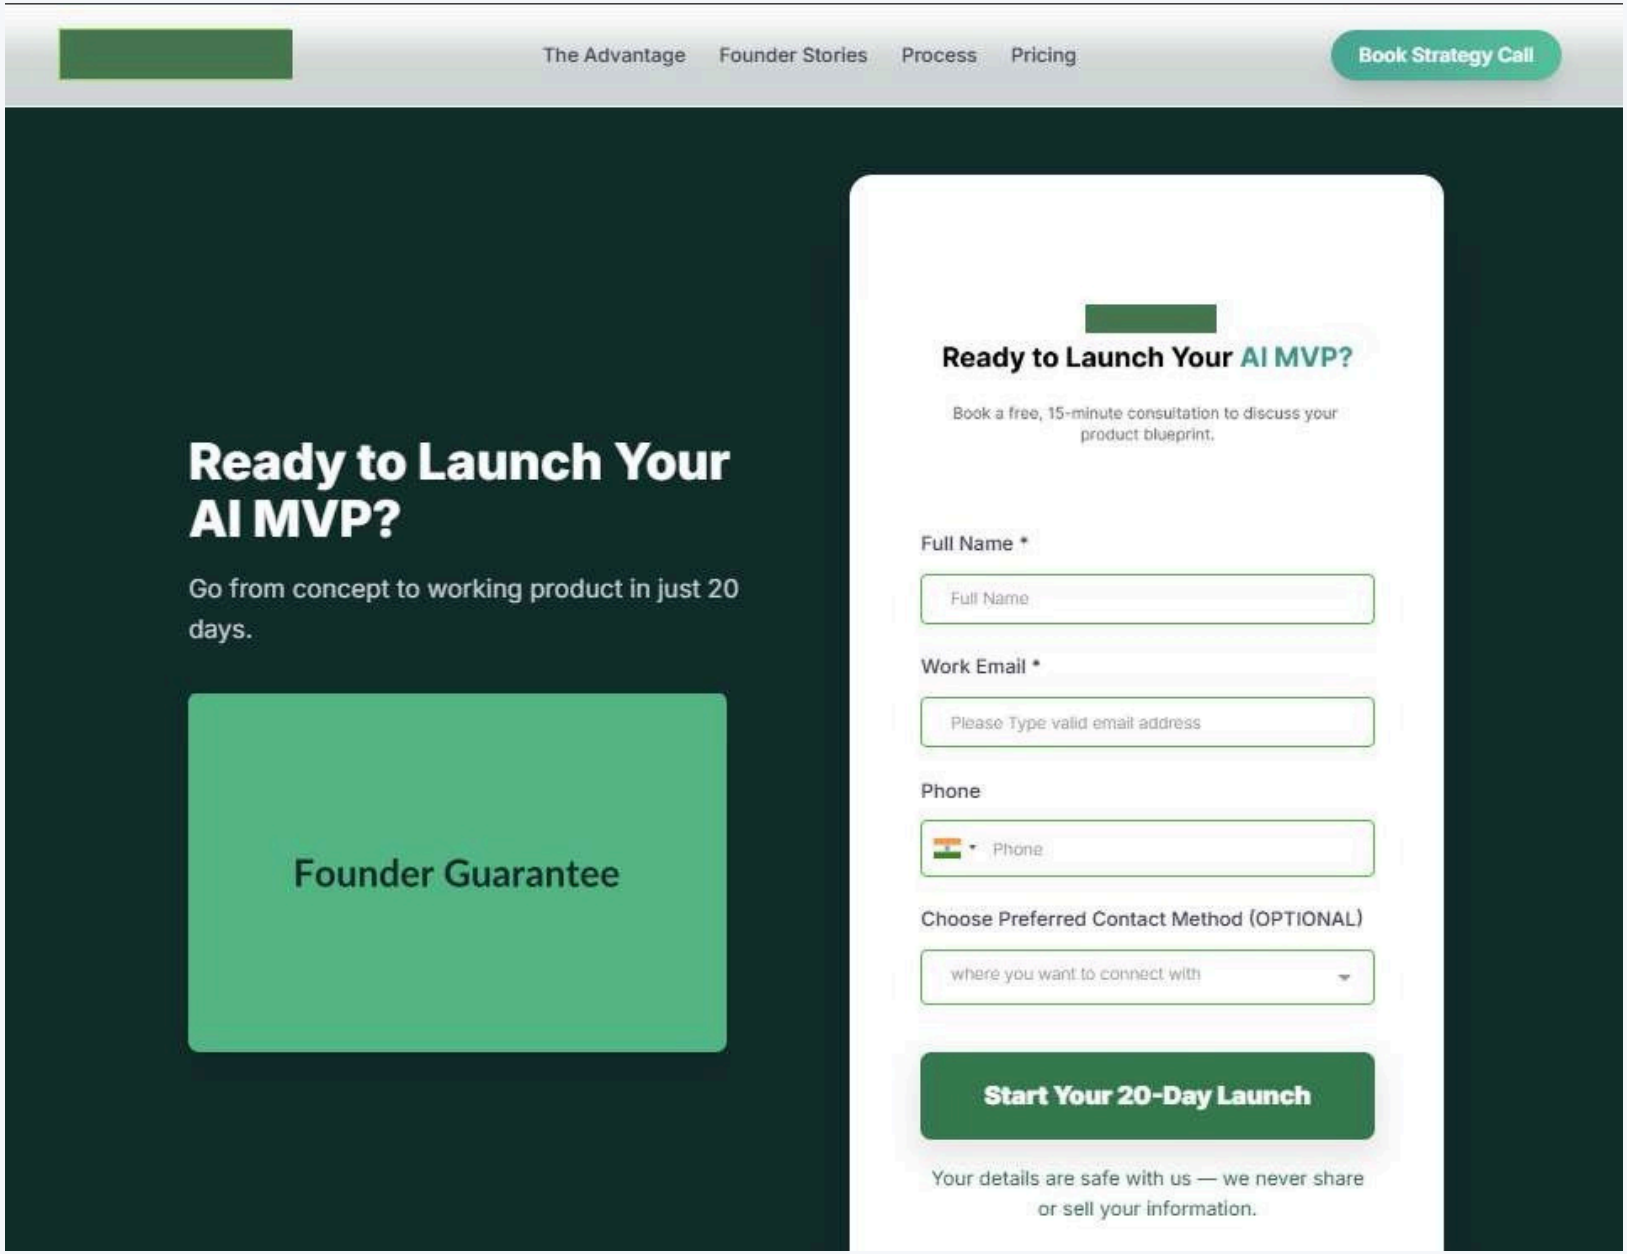
System breakdown inside →

Most service businesses lose leads due to:

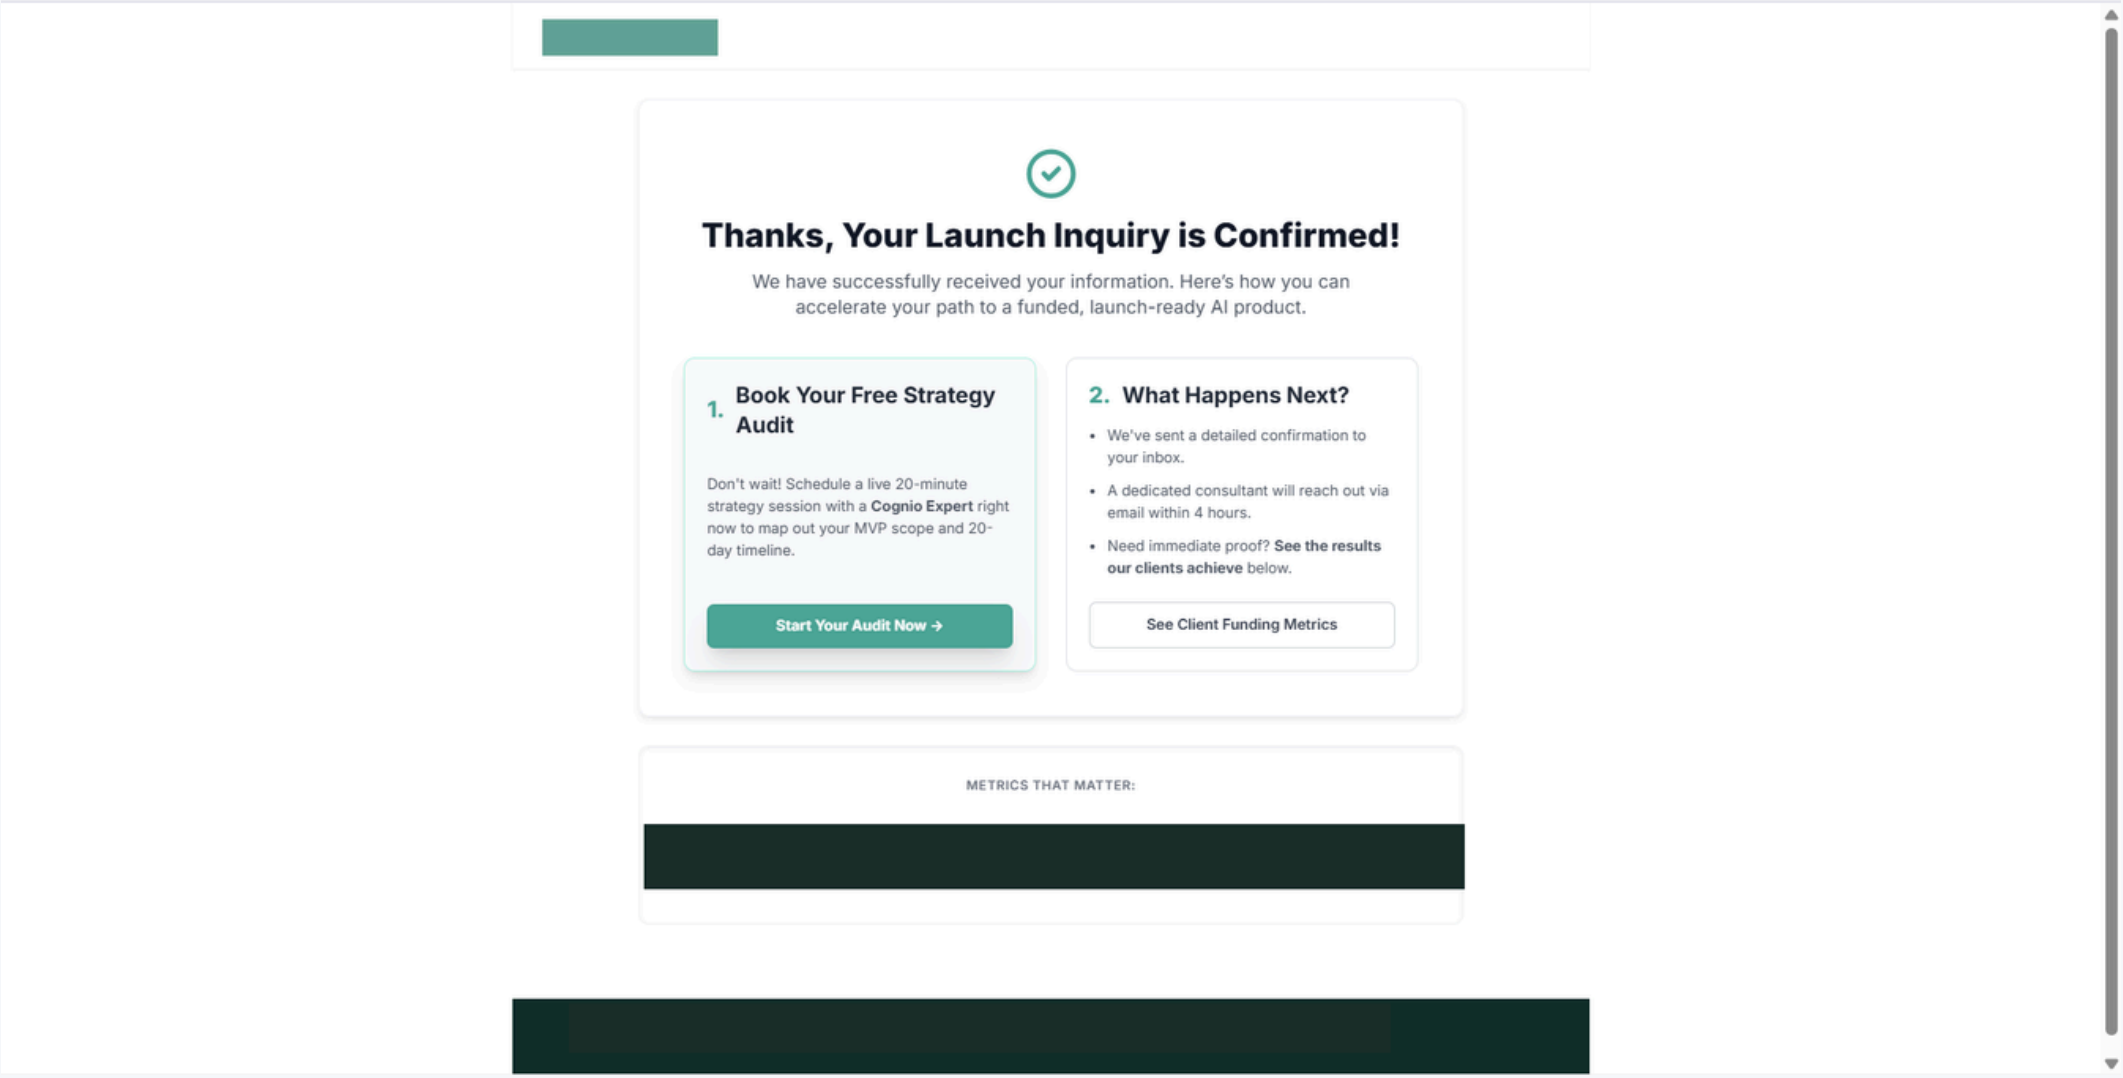
- No structured lead capture
- Delayed or missed follow-ups
- No clear booking process
- Manual handling of inquiries

Lead Capture → Instant Response → Booking → Automated Reminders

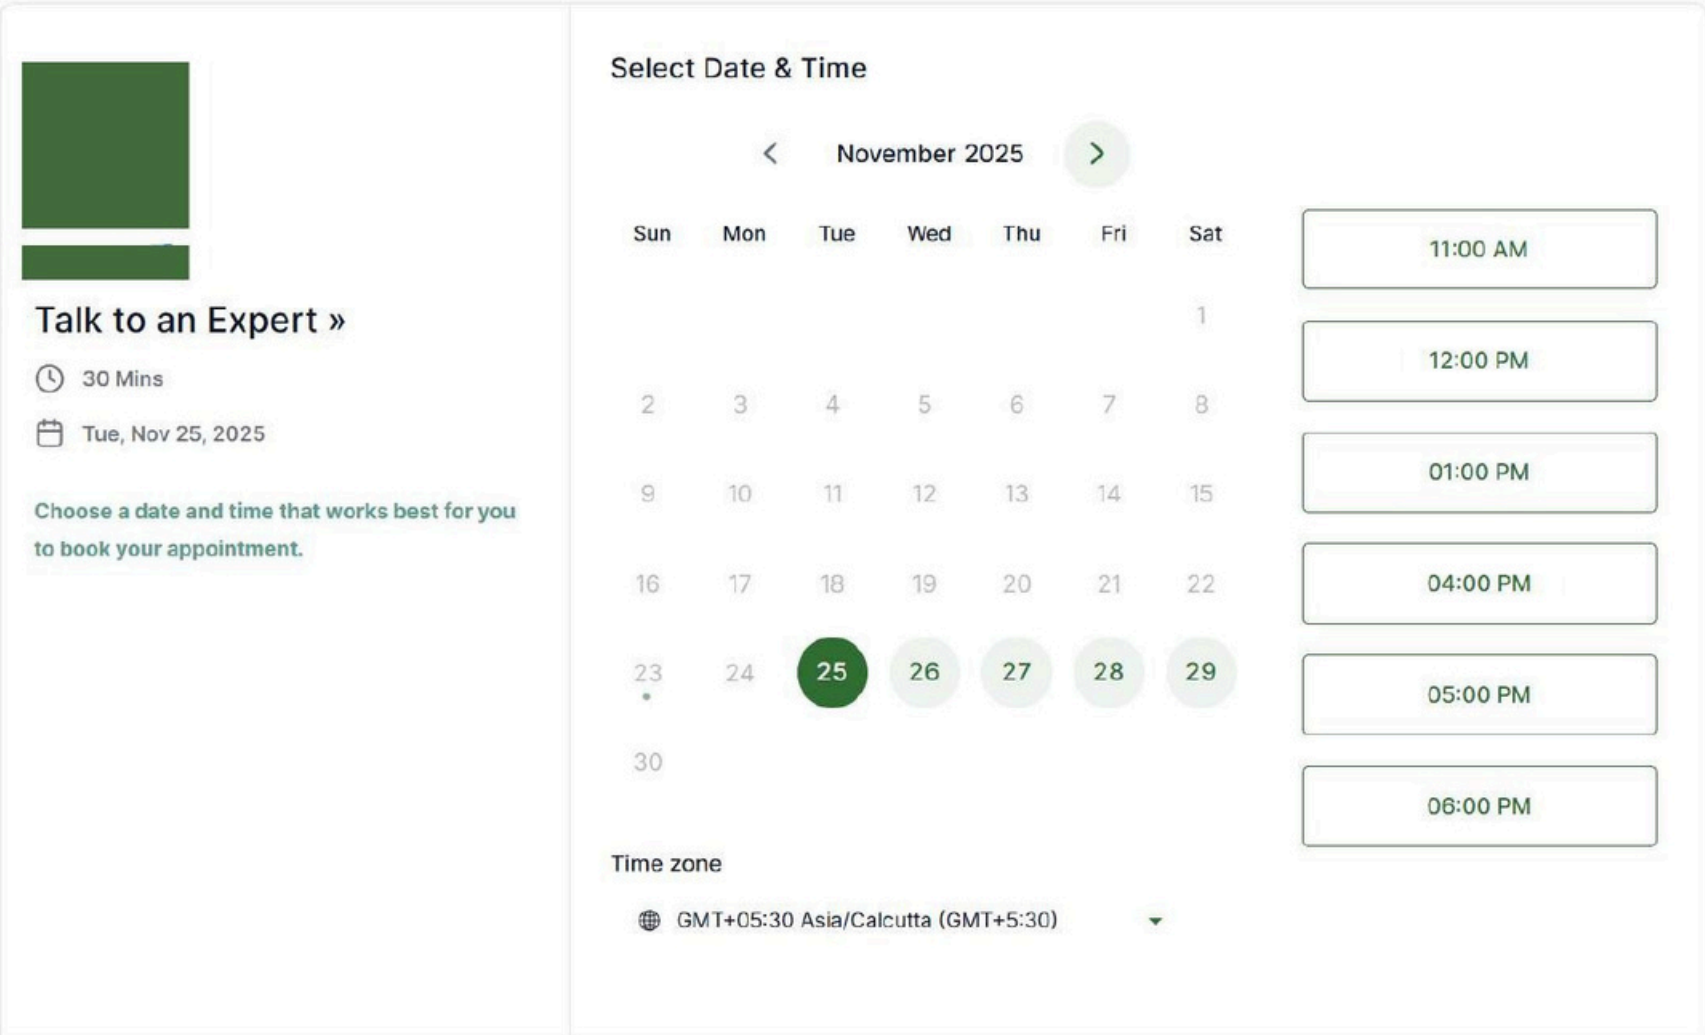
# Landing Page: Designed to capture and structure incoming leads



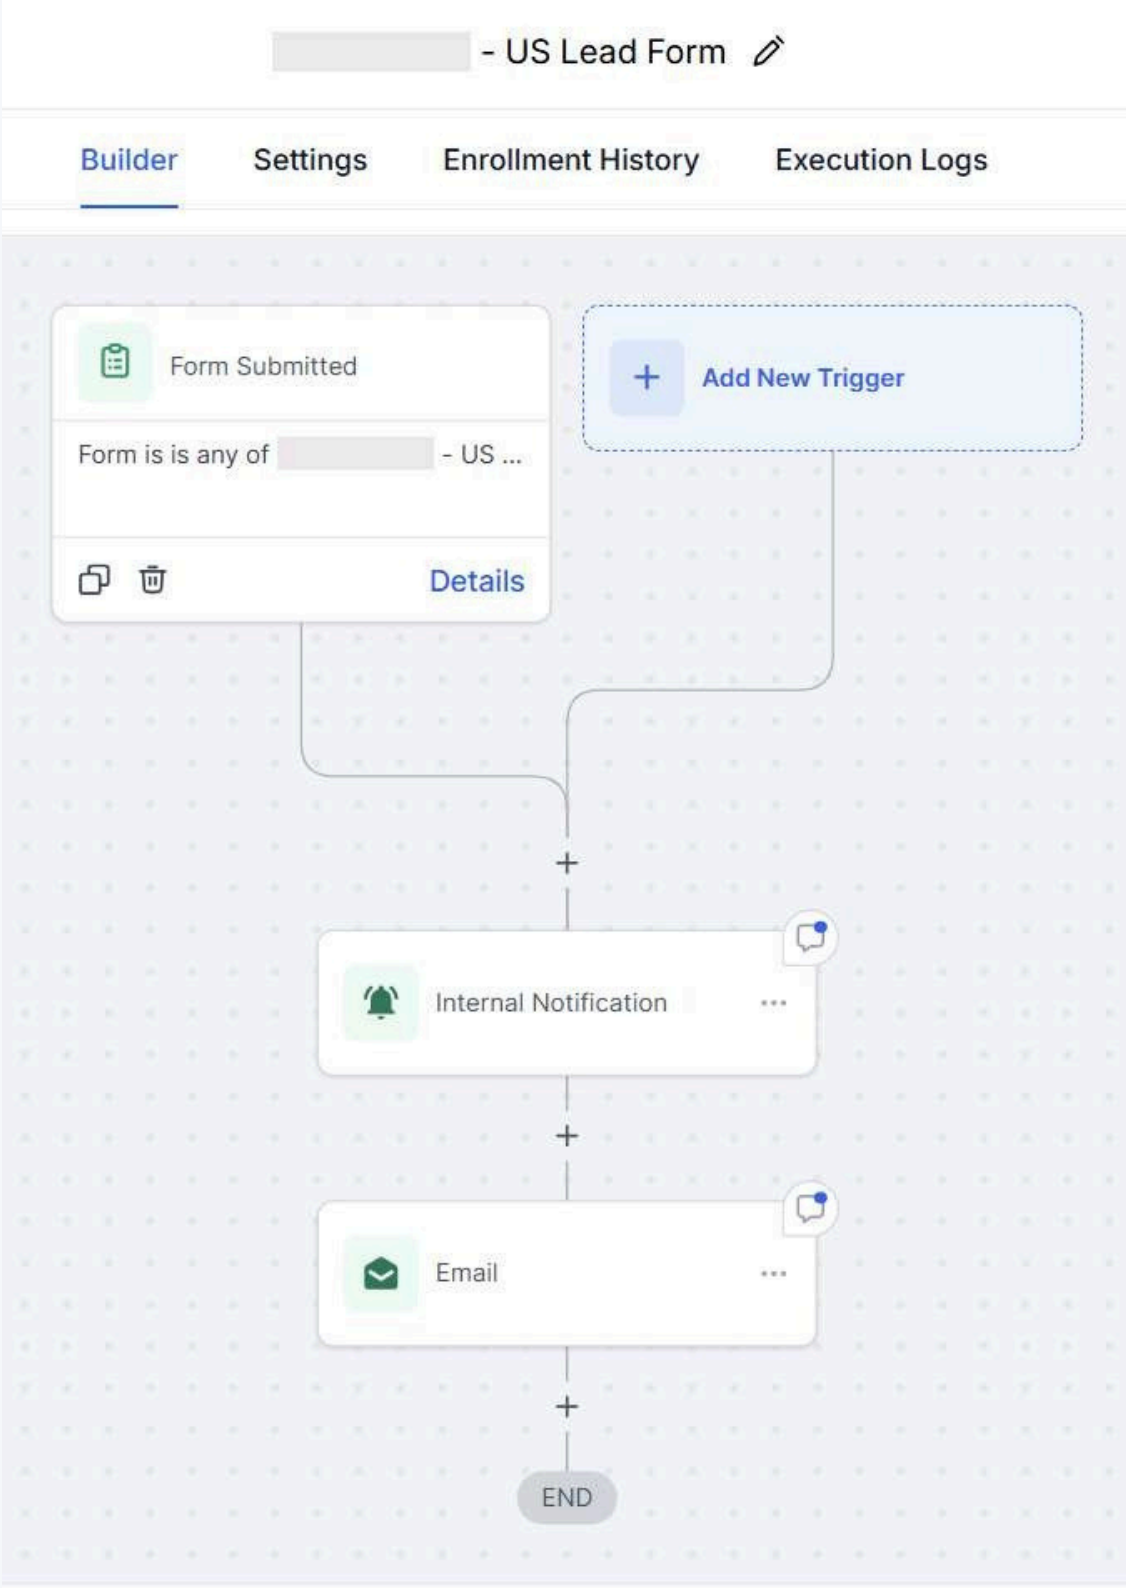
# Thank You Page: Directs leads immediately toward booking the appointment



# Booking System: Enables direct appointment scheduling without manual coordination



Form Automation: Sends instant confirmation and notifies the team immediately



# Appointment Workflow: Reduces no-shows with automated confirmations and reminders

Outcome:

- Every lead is captured and tracked
- Instant response within seconds
- Direct appointment booking
- Reduced manual follow-up workload

Note:

This system was developed as part of an internal work and workflow design demonstration. No client-sensitive data, branding, or proprietary information is included.

The purpose of this case is to demonstrate the system structure and automation logic.
